To whom it may concern:

Sungrow hereby declares the following as regards the Rate of Change of Frequency (RoCoF) and Vector Shift (VS) techniques for islanding detection and disconnection purposes in PV inverters installed in the UK:

SG20KTL-M	These models feature neither RoCoF nor VS.
SG30KTL-M	
SG36KTL-M	
SG50KTL-M	
SG33CX	
SG40CX	
SG50CX	
SG110CX	
SG250HX	
SG60KTL	RoCoF/VS not present (for firmware versions dated June 2017 onwards). RoCoF/VS functionality can be manually deactivated (for firmware versions dated prior to June 2017)

Hefei, P.R. China
